

Introducing The Original Toronto Spice Blend™

Experience the World in one bite.

The Original Toronto Spice Blend™ is one to set the culinary stage on fire. In our city of every culture and ethnicity it is hard to believe one spice mixture could capture who we are as citizens of Toronto. For this reason alone this spice mixture can simmer together our unique taste buds and better symbolize our cities true taste and identity.

Torontonians know authenticity. We know a good curry, we appreciate great sushi, good pasta, cheese, salami, dumplings or tortillas. We love a good burger, sausage or pizza, and we have all this available to us any day of the week.

The Original Toronto Spice Blend™ is one of familiarity but also of mystery. Depending on its various uses, one will be led to think of a gentle curry or of an Asian inspired dish, maybe Mediterranean, but no, perhaps this is a Latin American dish. There is absolutely no right or wrong use for this spice blend but at the same time it is not a hodgepodge of ingredients.

Spices representing each of our global heritages have been combined to reflect not only our heritage but with Toronto as a city of the future. We are bold yet restrained, we are serious but light, we have summer heat and cold winter winds, we are the work horse of a nation and we are always the underdog worldwide. In this spice mixture we replicate our true selves as a city, this spice blend is your work horse spice in your pantry, it is the easy way to create an authentic meal, it is Toronto's Authenticity.

The Original Toronto Spice Blend™ has been created by David Chrystian, and is the signature spice used in many of the dishes at Victor Restaurant. The Toronto Tasting Menu is a portion of the menu exploring the cultural roots of Toronto, and since inventing the Toronto Spice many of the menu staples have now adopted a new culinary high point.

Toronto Cuisine has at last been born.

The Original Toronto Spice Blend™ is available for purchase in Victor Restaurant.
